

## 2017 BCSE BOARD OFFICERS

**Johnson Controls**, Chair  
Mark Wagner, Vice President,  
Government Relations

**American Wind Energy Association**, Vice-Chair  
Tom Vinson, Vice President,  
Federal Regulatory Affairs

**EPDM Roofing Association**, Vice-Chair  
Jared Blum, Executive Director

**Sempra Energy**, Vice-Chair  
Allison Hull, Director, Federal Government Affairs

**First Solar**, Secretary  
Kathy Weiss, Vice President,  
Government Relations

**Global Policy Associates**, Treasurer  
James Wolf, President

**BCSE**, General Counsel  
David J. Muchow, PLC, Muchowlaw

**BCSE**, President  
Lisa Jacobson

## 2017 BCSE BOARD MEMBERS

**Alliance to Save Energy**  
Kateri Callahan, President

**American Gas Association**  
Dave McCurdy, President & CEO

**Austin Energy**  
Patricia Tierney Alofsin, Director,  
Government Relations

**Ingersoll Rand**  
Jeff Moe, Director, Global Product Advocacy,  
Center for Energy Efficiency and Sustainability

**Jupiter Oxygen Corporation**  
Thomas Weber, President

**National Grid**  
Emily Duncan, Director,  
Federal Government Relations

**National Hydropower Association**  
Linda Church-Ciocci, Executive Director

**Polyisocyanurate Insulation  
Manufacturers Association**  
Justin Koscher, President

**Qualcomm**  
Steve Crout, Vice President, Government Affairs

**Sacramento Municipal Utility District**  
Arlen Orchard, General Manager & CEO

**Solar Energy Industries Association**  
Katherine Gensler, Director, Government Affairs

**Solar Turbines**  
Gil Amengual, Director, Marketing  
and Product Strategy

**The Stella Group, Ltd.**  
Scott Sklar, President

# About the — — BCSE

Energy —  
— Efficiency

Natural —  
— Gas

Renewable —  
— Energy

The Business Council for Sustainable Energy (BCSE) is a coalition of companies and trade associations from the energy efficiency, natural gas, and renewable energy sectors.

The BCSE advocates for policies at the state, national, and international levels that increase the use of commercially available clean energy technologies and that create a more secure, sustainable, and diversified energy portfolio.

The industry vision that established the BCSE in 1992 continues today, as the Council's industries work together to meet U.S. energy needs and power the American economy.

## The Council works to:

- Enact policies that accelerate the deployment of energy efficiency, natural gas, and renewable energy
- Implement cost-effective programs and policies that recognize the environmental attributes of energy sources
- Increase the energy productivity of the economy and improve energy security
- Encourage market-based initiatives for energy and environmental policies.

## Sustainable Energy in America Factbook

It is a new era for American energy. Clean energy is delivering wins for America by lowering costs, spurring economic growth, and fostering job creation. The BCSE and Bloomberg New Energy Finance created the Sustainable Energy in America Factbook to provide policymakers, journalists, and industry professionals with up-to-date, accurate market information.

Key findings from the 2017 edition of the Factbook include:

- In 2016, consumers devoted less than 4% of their total annual household spending to energy, the smallest share ever recorded.
- American energy productivity increased by 10% from 2011 to 2016.
- Natural gas and renewable energy generated 50% of U.S. electricity in 2016, up from 38% in 2011.
- Renewable energy is a prominent part (22%) of the U.S. 2016 power fleet, with 244 GW of installed capacity across the country, an 83% increase over 2007 levels.
