## ***Mobilizing the Business of Clean & Productive Energy***

Thursday, November 9, 13:15 – 14:45 pm  
Business and Industry (BINGO) Day  
Meeting Room 7, Bonn Zone

### **Overview**

The private sector plays an integral role in powering forward ambitious action on climate change. There is a broad array of already existing clean and more productive energy technologies, as well as renewable bioproducts that can help propel both local communities and national governments towards meeting their climate goals and building smart, sustainable infrastructure.

Hear how companies are investing in this global low-carbon future, and deploying solutions today – in the electricity grid, the built environment, transportation systems, and in homes and communities – that are reducing greenhouse gas emissions, increasing resilience, and at the same time creating jobs and growing economies.

**Hosted By:** Alliance to Save Energy, Business Council for Sustainable Energy, Corn Refiners Association, U.S. Green Building Council

### **Featuring Two Panel Discussions:**

#### **Setting the Stage: Industry Trends and What They Mean For Climate Action**

- Laura Van Wie McGrory, Vice President, Strategic Initiatives, Alliance to Save Energy (@ToSaveEnergy)
- Elizabeth Beardsley, Senior Policy Counsel, US Green Building Council (@USGBC)
- Clay Nesler, Vice President, Global Sustainability and Industry Initiatives, Johnson Controls (@JohnsonControls)
- Anda Ghiran, Global Energy and Sustainability Policy Manager, Johnson Controls (@JohnsonControls)
- Ben Gruitt, Director, Sustainability and Advanced Bioproducts, Corn Refiners Association (@CornRefiners)

#### **Business in Action: Clean Energy Technologies as Climate Solutions**

- Jeff Moe, Global Director, Energy Policy and Product Advocacy, Center for Energy Efficiency and Sustainability, Ingersoll Rand (@IngersollRand)
- Harry Verhaar, Head of Global Public & Government Affairs, Philips Lighting (@PhilipsLight)
- John Kadyszewski, Senior Director, Strategic Initiatives, Winrock International (@WinrockIntl)
- Thomas Weber, President, Jupiter Oxygen Corporation
