

Please join us at the US Business Showcase for a discussion on

Energy Technology and Systems Solutions

Wednesday, November 15, 16:40 – 17:30

US Climate Action Pavilion

Fiji Dome

Overview

The US Business Showcase will run from 12:00 -18:00 (see Pavilion schedule [here](#)). This panel will feature American businesses that are implementing solutions to reduce GHG emissions and increase resilience in the electricity grid, the built environment, transportations systems, and in homes and communities in the U.S. and abroad. By utilizing a wide array of clean energy technologies and innovative business models, we can power the ambition of governments to drive further climate action and achieve economic growth at the local and national levels.

Moderator: Lisa Jacobson, President, Business Council for Sustainable Energy

Speakers:

- Josh Sawislak, Global Director of Resilience, AECOM Design and Consulting Services
- Jeff Moe, Global Director, Energy Policy and Product Advocacy, Ingersoll Rand
- Clay Nesler, Vice President, Global Sustainability and Industry Initiatives, Johnson Controls
- Irving Mintzer, Consultant, Jupiter Oxygen Corporation
- Melissa Lavinson, Vice President, Federal Affairs and Policy, Chief Sustainability Officer, PG&E Corporation
