

## BCSE AT NARUC: Expanding Clean Energy Across the US

### Get Involved with BCSE's Exciting NARUC Outreach

#### Why NARUC?

Utility commissioners are key state policy makers tasked with economic policy and energy planning decisions. NARUC events provide unique opportunities to reach state regulators.

#### What is the role for BCSE?

BCSE engages with utility commissioners at meetings of the National Association of Regulatory Utility Commissioners (NARUC) to highlight market rules, practices, and policies that should be addressed in order to expand the use of a wide range of clean energy technologies.

**BCSE can help increase your access to utility commissioners and enhance your ability to engage with states on important energy planning topics.**

#### Value for BCSE Members

BCSE enhances member access through activities that provide **one-on-one access** to commissioners and commission staff from across the country. For example, in the past year BCSE has held:

- A **clean energy industry reception** at the 2017 NARUC Winter Policy Summit in Washington, DC.
- A **presentation on the 2017 Factbook** to the NARUC Energy Resources and Environment Committee
- Two **private breakfast discussions** with key commissioners at the 2017 MACRUC Annual Education Conference in Hershey, Pennsylvania.
- A **luncheon roundtable** discussion at the NARUC Summer Policy Summit in

Kara Saul Rinaldi (representing Aclara) and New Jersey PUC Chair Richard Mroz at MACRUC breakfast.

San Diego, California with 7 Commissioners and over 40 industry professionals in attendance.

- A **clean energy industry reception** at the NARUC Summer Policy Summit with 10 industry co-sponsors.

## BCSE Member Perspectives

"Great plan to allow the Commissioners that were present, the opportunity to talk - really appreciated hearing their perspectives as well. Well done!" - **Allison Hull, Sempra Energy, regarding NARUC luncheon in San Diego.**

"The luncheon was one of the best we have had. Attendance was excellent. We had 6 commissioners speak which was very educational...I was very pleased, so thank you and the BCSE!" -**Steve Crout, Qualcomm, regarding NARUC luncheon in San Diego.**

## Become a Sponsor!

BCSE NARUC activities are supported through supplemental funding from our members and to build on our success we are always looking for additional sponsors. Sponsors are recognized in marketing materials distributed at NARUC events and are featured during our NARUC discussions.

**Come try us out on November 12 in Baltimore:** Join your colleagues and commissioners at the Clean Energy Industry Reception at Camden Yards for networking and live music. On November 14 a BCSE breakfast discussion with Florida Commissioner Ronald Brise, and other commissioners, will be held to discuss the role of clean energy and energy efficient technologies in preparing for, and responding to, natural disasters and events.

Additional BCSE events are planned throughout 2018 including, the NARUC Winter Policy summit in Washington, DC, the MACRUC Annual Education Conference in Hershey, Pennsylvania, the Summer Policy Summit in Phoenix, Arizona and the 2018 Annual Meeting in Orlando, Florida.

**Contact Ruth in the Council's offices for additional information on sponsorship opportunities and on how you can get involved.**
